Future Search II
An Invitation to the Plan Our Future

During Future Search I, held in September, the community worked together to define the core values that make this Reservation unique.

Now, at Future Search II, a vision statement expressing our dreams for the future and built upon a foundation made up of these values, will be chosen. Then, attending Community members will continue to work toward the realization of the community vision by setting goals and objectives in the form of desired projects and programs. This will be the final step before the prioritization of our proposed projects. Please remember that this is a Community-based Plan. We would like to hear from the whole community.

Penny and Gary Burns once again look forward to facilitating. We need everyone’s input!

Date: Monday, October 20th
Time: 5:00 – Potluck everyone bring a dish!
Place: The Gathering Center
Door prizes will be given away.

Incorporating Our Values into a Vision Statement

-Vision Statement Voting Form Showing Final Scores-
Community Vision Statements

A Vision Statement is simply a short description of the way you would like for the Burns Paiute Reservation to be in the future. It is made up of community values and goals. As you read them over, picture yourself ten years from now being able to read the statement as fact. The purpose behind a Community-based Strategic Plan is to create a map to help the Tribe make your vision become a reality.

Please read these vision statements over very carefully several times before deciding upon the one that best reflects the vision you have for the Burns Paiute Community. Once you have decided, put an x in front of the statement you have chosen. Please select only 1 vision statement.

4. The Burns Paiute Tribe is a proud community rich in culture and job opportunities. The positive outlook of our people, coupled with strong leaders who are responsive to the needs of the people, has enabled our families to educate their children in a safe and healthy environment surrounded by recreational programs that create a happy community.

9. The Burns Paiute Tribe is a healthy and happy community with abundant job opportunities for its people. The Tribe’s strong leadership is responsive to the needs of the people, creating a positive outlook that enables the Tribal community to grow and to prosper. By prioritizing a stable future for our children, we have instilled in them pride in their heritage, a hunger for education and a deep respect for the importance of family and of a close-knit community.

10. The Burns Paiute Tribe is a community of 210 people dedicated to the healthy development of our families. While maintaining the endurance of cultural values and the protection of our vital natural resources, community members enjoy a healthy lifestyle with ample opportunity for vocational and recreational activities. Thanks to the Tribe’s early emphasis on health, wellness and education, our social and justice programs are minimal since the issues that require the need for those programs have all but been eliminated. Tribal leadership is strong, fair and a great model to be followed by future generations of Burns Paiute leaders.

3. The Burns Paiute Tribe is a prosperous and growing community. Under the strong leadership of our Tribal Council and Administrative staff, we are able to offer ample opportunities for employment, education and recreation. Our people are happy, healthy and involved in the on-going planning of a prosperous future built upon the values that reflect pride in our culture and the love of our Tribal community.

Four vision statements were written based on the values above. These were presented to the community and put to a vote to select the statement that our people feel best represents the vision we have for the future of the Burns Paiute Community. In March 2015, we chose the statement recorded below:

"The Burns Paiute Tribe is a community of 210 people dedicated to the healthy development of our families. While maintaining the endurance of cultural values and the protection of our vital natural resources, community members enjoy a healthy lifestyle with ample opportunity for vocational and recreational activities. Thanks to the Tribe’s early emphasis on health, wellness and education, our social and justice programs are minimal since the issues that require the need for those programs have all but been eliminated.
